

LENOVA®

DESIGN INSPIRED BY FUNCTION

Thank you for the purchase of your Lenova faucet. Lenova uses the highest quality materials and workmanship in manufacturing faucets that will give you years of beauty and use when properly cleaned and maintained.

Cleaning your Lenova Faucet:

GENERAL CARE & CLEANING:

Daily cleaning may be done with a mild dish washing soap. After every use, rinse and wipe the faucet dry with a clean, soft cloth to eliminate any water spots or soap film build-ups.

WHAT NOT TO USE:

- 1) Avoid spilling harsh chemicals like nail polish remover and other solvents
- 2) Do not use any abrasive cleaning agents or scrub pads, such as Steel Wool
- 3) Straight bleach
- 4) Commercial alkalis, such as ammonia and/or caustic solutions
- 5) Drain blocking chemicals that involve filling the sink with water
