DESIGN INSPIRED BY FUNCTION

BATH COLLECTION

FAUCET: B487SBN

SHOWER PANEL:  
SP-SS-03

SHOWER HEAD: SHCS124B

## Welcome to the world of Lenova, where beautiful design is infused with the essence of nature and form and function exist in perfect harmony.

At Lenova we celebrate the time-honored techniques of our master artisans while also embracing the innovative technology that puts us at the forefront of the industry. We source only the finest materials from around the globe. The result is a remarkable collection of award-winning products that run the gamut from handcrafted sinks to sophisticated faucets and showers. Our new bath collection is a testament to the collaborative efforts of our entire team – the designers, engineers, artists and craftsmen who give life and meaning to the Lenova brand and make our vision a reality.

Choose a pre-set shower system or build your own “dream shower” by mixing and matching our DIY components. Our industry-first Thermostatic Shower Valve allows no more than a one-degree temperature change, creating a more soothing, consistent and safer shower experience. It also provides a triple-function control value to easily manage water temperature, volume and pressure. All our valves and faucets are made from the highest quality materials for long-lasting performance and durability. Lenova offers a complete line of sinks in traditional materials such as stainless steel, porcelain and glass, as well as sinks with a singular organic inspiration such as fire clay, copper, stone, bronze and bamboo. Founded in 2007 by entrepreneur Chris Lee, Lenova remains committed to the idea that luxury design should be beautiful, eco-friendly and affordable. Our goal is to design exquisite products and to ensure each customer has an extraordinary experience.

# SOLID STAINLESS STEEL FREE STANDING TUB FAUCET

## **FST01SS**

(High Quality Solid  
304 Stainless Steel)

Faucet Height: 40"

Spout Height: 39  $\frac{3}{8}$ "

Spout Reach: 11  $\frac{7}{16}$ "

Our **FREE STANDING TUB FAUCET** is the perfect complement for a free-standing bath! This beautiful faucet brings a sculptural element to the bathroom with graceful lines and elegant silhouettes. This sophisticated faucet makes a luxurious style statement that goes well with vintage-inspired or contemporary decors. Their compact design consumes little square footage, making them an ideal choice for tight spaces. Crafted of high-quality stainless steel, this **FREE STANDING TUB FAUCET** adds enhances both the look of the bathroom and the bath experience.

- Made of Solid 304 Stainless Steel • No Lead content
- Top Quality Ceramic Cartridge provides drip free and durable performance
- Certified with cUPC and AB1953

Lenova's **THERMOSTATIC SHOWER SYSTEMS** are a must-have addition to the bathroom bringing the shower experience to a whole new level. Designed with luxury and relaxation in mind, these all-inclusive systems feature a showerhead, multiple body sprays and a hand-held sprayer all crafted in solid brass components. Breakthrough technology developed over years of research allows thermostatic and pressure balance functions combined together into one valve to easily control water temperature, volume and pressure. The system maintains water temperature within 1°F even with the shower and sprayers are used simultaneously. The **THERMOSTATIC SHOWER SYSTEMS** are offered in Polished Chrome or Brushed Nickel.

SHOWER SET: TPS101BN  
LINEAR DRAIN: G01-48SET

- Highest Quality Shower Valve with Only One Degree Temperature Difference
- Combined Thermostatic and Pressure Balance Valve + Triple-Function that Controls Water Temperature, Volume and Pressure with 3 Solid Brass Volume Control Valves
- Solid Brass Body Jets, Hand Sprays and Holders

## INSIDE THE LENOVA THERMOSTATIC & PRESSURE BALANCE SHOWER VALVE

Lenova brings cutting-edge technology to the shower with industry-leading innovation

- Crafted of the highest quality materials for exceptional performance
- Allows only one degree of temperature difference in the outlet water regardless of the temperature or pressure change of the inlet water
- Impressive triple-function valve controls water temperature, volume and pressure
- Top-quality, solid brass components for lasting durability

Solid brass  
diverter valve

Solid brass  
rough-in valve

Stop valve

Two inlets and  
Two outlets

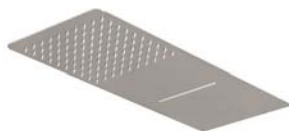

Multiple mounting  
options allow for  
greater installation  
flexibility with a  
3 1/2" box

Our **BATH FAUCET COLLECTION** includes variety of models designed to enhance any bath decor, in single lever or dual handle styles. As with all Lenova products, the faucet line is designed not only for its beauty but is built to last. The type 304 stainless steel or solid-brass construction eliminates the concern associated with lead, and the quality finishes insure a lifetime of good looks with minimum care. All the faucets have top-quality ceramic disk cartridges for a drip-free, durable performance.

FAUCET: SBS601SS

## STAINLESS STEEL BATH FAUCETS

### **SBS600SS**

LINEAR DRAIN: WG01-48SET

All Lenova **LINEAR DRAIN SYSTEMS** include a drain body frame crafted from premium quality type 304 stainless steel with a vertical 2" tailpiece. The adjustable-height metal legs allow for perfectly smooth leveling of the drain grate to the tile. The generously tapered slope of the frame ensures high-capacity drainage and the removable inserts provide easy access to the hair catcher and drain hole protector for cleaning. The drains are all ADA compliant and UPC certified making them ideal for barrier-free applications in residential, hospitality or commercial spaces
