

# PROTECT YOUR HOME WITH A GERM-KILLING FAUCET!

## Change Tap Water Into Ozonated Water and Fight Coronavirus Chemical-Free

- Aqueous ozone is a **NATURAL DISINFECTANT** that is **100 times stronger than Chlorine** and kills bacteria **3100 times faster**.
- Ozonated water **KILLS 99.9% of ALL COMMON VIRUSES**, bacteria and germs.
- **AQUEOUS OZONE WATER CAN ELIMINATE THE USE OF HOT WATER AND CONVENTIONAL SANITIZERS.**
- **FDA approved for sanitizing counters and other surfaces.**

# OZONE IS MOTHER NATURE'S ANTI-MICROBIAL DISINFECTANT

The **AQUALOGIC OZONE FAUCET LINE** is the first conventional hot/cold faucet that is also an ecologically safe way to clean food, and any other water safe surface without any chemicals or chemical residue. The faucet features a small, thin ozone generator that uses regular house current to economically and naturally produce ozone water. **AQUALOGIC FAUCETS** are simply as elegant in design as they are extraordinary in function.

- Aqueous ozone is a powerful, clinically proven and extensively tested broad-spectrum microbiological agent which **KILLS VIRUSES**, bacteria, mold, yeast and algae within seconds of contact.
- Ozonated water also **KILLS COMMON FOOD PATHOGENS**, improving food's shelf life, removes odors and increases the level of protection from food born illnesses.
- Ozone treated water is the easiest and most economical way to assure that your home is germ free and the food being prepared is absolutely safe for consumption.
- **OZONE IS APPROVED BY THE FDA** and leaves no toxic residue on treated surfaces providing a natural, safe, and inexpensive anti-microbial solution for the home. Chemical cleaners cannot match its effectiveness.
